"...highly experienced..."

We have used AmP for many years on all pre-buys and heavy maintenance from Citations II to G550's.

They have a highly experienced staff and are always ahead of the manufactures in quality and pricing.

I highly recommend them with any maintenance needs.

"...we will definately return."

We gave AmP a try on one of our corporate Gulfstream GV's. We were released a few days early, below budget...

AMP understands...keeping their customers flying...providing cost effective maintenance... We will definately return.
